American Society of Dentist Anesthesiologists

Presents a Live Online Broadcast

Review of Journal Articles that Made an Impression

Mark Saxen, DDS, PhD
Kyle Kramer, DDS, MS
Carilynne Yarascavitch, BSc, DDS, MSc

Register Here

Friday, May 1, 2020
11:00 am Central
1.0 CE Hours

Registration Fee
$49 for Members, $75 for Non-Members
1.0 CE unit is available for viewing the live broadcast in its entirety.
This Broadcast will be recorded and eligible for 1.0 unit On-Demand CE, provided a 70% or higher is obtained on the post session quiz.

Lecturers will review the most impactful journal articles they have read in the last 2 years. The three selected for review are:

**Succinylcholine Use and Dantrolene Availability for Malignant Hyperthermia Treatment: Database Analyses and Systematic Review.**

Anesthesiology. 2019 Jan;130(1):41-54. doi: 10.1097/ALN.0000000000002490

**Upper Airway Collapsibility during Dexmedetomidine and Propofol Sedation in Healthy Volunteers**

Anesthesiology 11 2019, Vol.131, 962-973. doi:https://doi.org/10.1097/ALN.0000000000002883

**Assessment of functional capacity before major non-cardiac surgery: an international, prospective cohort study**

The Lancet: June 30, 2018 DOI:https://doi.org/10.1016/S0140-6736(18)31131-0
About the Speakers

Kyle J. Kramer, DDS, MS

Kyle J. Kramer, DDS, MS, is a board-certified dentist anesthesiologist who serves as full-time faculty at Indiana University School of Dentistry (IUSD) and maintains a part-time private practice. He joined IUSD in 2010 and is currently a Clinical Associate Professor of Dental Anesthesiology within the Department of Oral Surgery and Hospital Dentistry. He primarily oversees residents delivering sedation and general anesthesia within the hospital and dental school clinics. Additionally, he is course director for multiple predoctoral and graduate level courses. Dr. Kramer also maintains a successful private practice as a mobile dentist anesthesiologist, providing anesthesia services for pediatric and adult patients in the central Indiana area.

In addition to excelling within the worlds of academics and private practice, Dr. Kramer has quickly established a reputation as a young leader within dental anesthesiology. He has been editor-in-chief of Anesthesia Progress since January 2019. He is an oral board examiner and served on the ADBA Board of Directors from 2013-19 which culminated with a two-year term as president from 2017-19. Dr. Kramer has also produced several notable publications and has lectured at local, state, regional, and national meetings for a multitude of dental organizations including ASDA, ADSA, and several state oral surgery societies.

When not busy with work, Kyle relishes the time spent with his beautiful wife, Brianna, and their four children, Gabi, Aiden, Kendall, and Jackson. Although travel soccer currently tends to occupy much of their spare time, they can often be found living the lake life to its fullest.
Dr. Saxen received his undergraduate education at the University of Notre Dame and his predoctoral dental training at the Case Western Reserve University School of Dental Medicine. After practicing general dentistry for a decade, he entered the Medical College of Virginia/Virginia Commonwealth University Dentist Scientist Program, receiving his certificate in Anesthesiology and his PhD in Pharmacology in 1993. He has provided office-based anesthesia to dental practices in the greater Indianapolis area since that time. He also served as a Clinical Associate Professor for the Indiana University School of Dentistry until 2008, where he directed courses in pharmacology, pain and anxiety control, and graduate anesthesia training for the Oral and Maxillofacial and Pediatric Dentistry residency programs. In addition to an active private practice, Dr. Saxen is currently a member of the Sedation and Anesthesia Research Group and a Special Consultant to Pediatric Dental Department of Riley Hospital for Children in Indianapolis. He is a past president of the American Society of Dentist Anesthesiologists and the American Dental Board of Anesthesiology, and the current President-Elect of the American Board of Dental Specialties. He is a fellow of The American College of Dentists and the International College of Dentists. Dr. Saxen has contributed many publications on anesthesia-related issues in dentistry and presented over 50 invited presentations both nationally and abroad.

Dr. Yarascavitch is a Dentist-Anesthesiologist and Assistant Professor at the University of Toronto (Jul 2013). As the Graduate Dental Anaesthesia Specialty Program Director, she is active in the didactic and clinical training of dental anaesthesia residents and doctor of dental surgery students. After receiving her BSc in Biology from Brock University (Jun 2000), and DDS (Jun 2004), she completed her MSc in Dental Anaesthesiology (Oct 2008) from the University of Toronto. As a Diplomate of the ADBA (Apr 2009), she is a Certified Specialist in Dental Anaesthesia in Ontario, Canada (May 2009) and Active Staff at Sunnybrook Health Sciences Centre (Dec 2012). Her deep sedation and general anesthesia practice at this large tertiary care academic hospital provides access to care for dental phobic, special needs, and medically complex patients.

Dr. Yarascavitch is former Research Fellow at the Wilson Centre for Education Research, Toronto General Hospital (University Health Network) (2007-2015). She is an active member of the International Association for Dental Research (IADR) Dental Anaesthesiology Research (DAR) Group, International Federation of Dental Anesthesia Societies (IFDAS), American Society of Dentist Anesthesiologists (ASDA), Canadian Academy of Dental Anaesthesia (CADA), and the Canadian Association of Hospital Dentists (CAHD). She a Heart and Stroke Certified ACLS (Dec 2007), PALS (Apr 2019) and BLS (Apr 2019) instructor with both the Sunnybrook Advanced Life Support (ALS) Educators and Canadian International Medical Relief Organization (CIMRO). Her clinical and research interests include sedation and dental care for special needs and medically complex patients and health professions education research and scholarship.
